MEET
GREAT PARKS FOREVER

As the philanthropic partner for Great Parks of Hamilton County, we translate an early conservation promise into everyday experiences and lasting legacies.

Last year, we embarked on a journey to renew our promise to ourselves and our supporters. Through rebranding and renaming, we will inspire a community of Great Parks supporters to steward natural and financial resources for all forever.

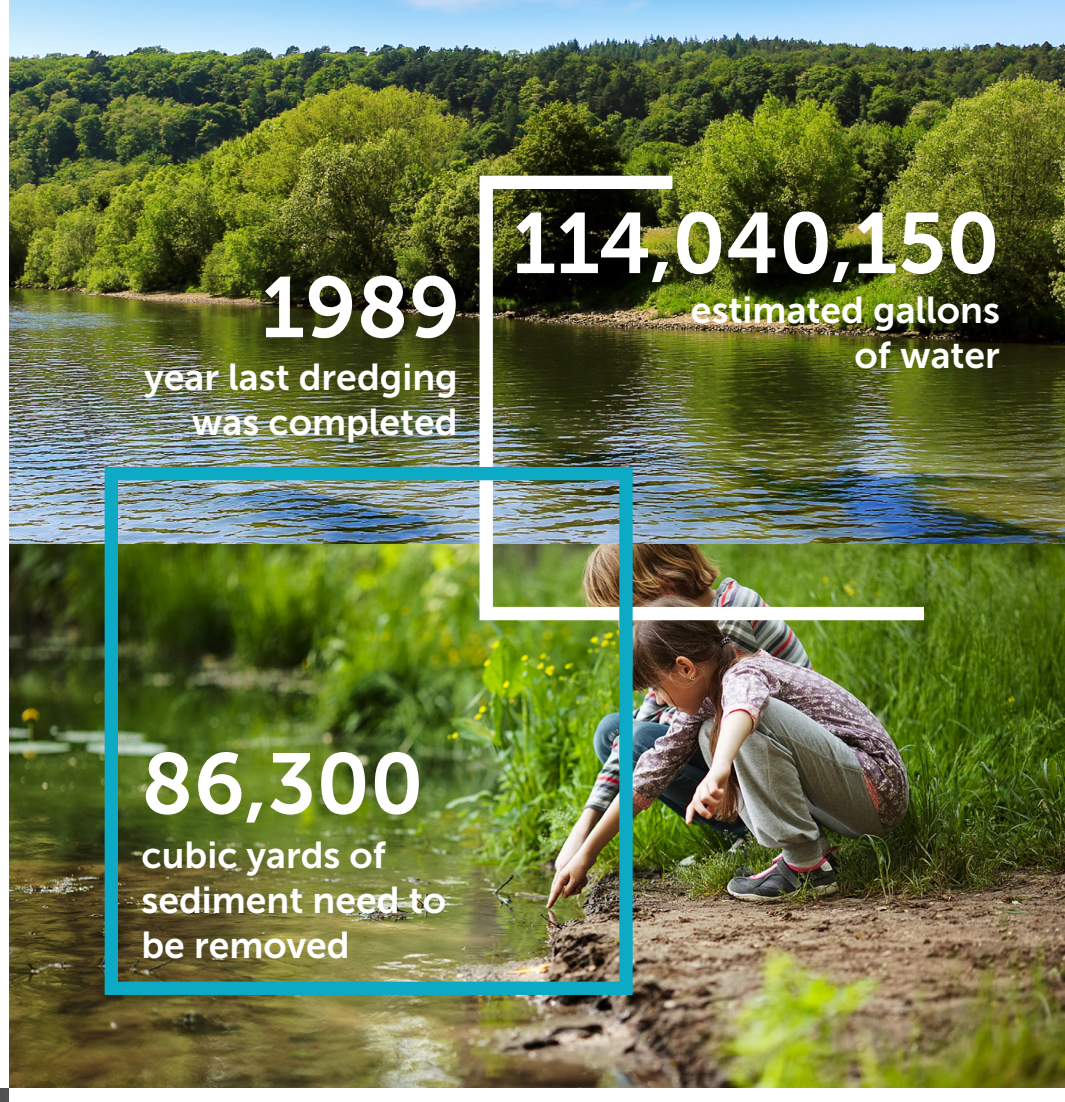
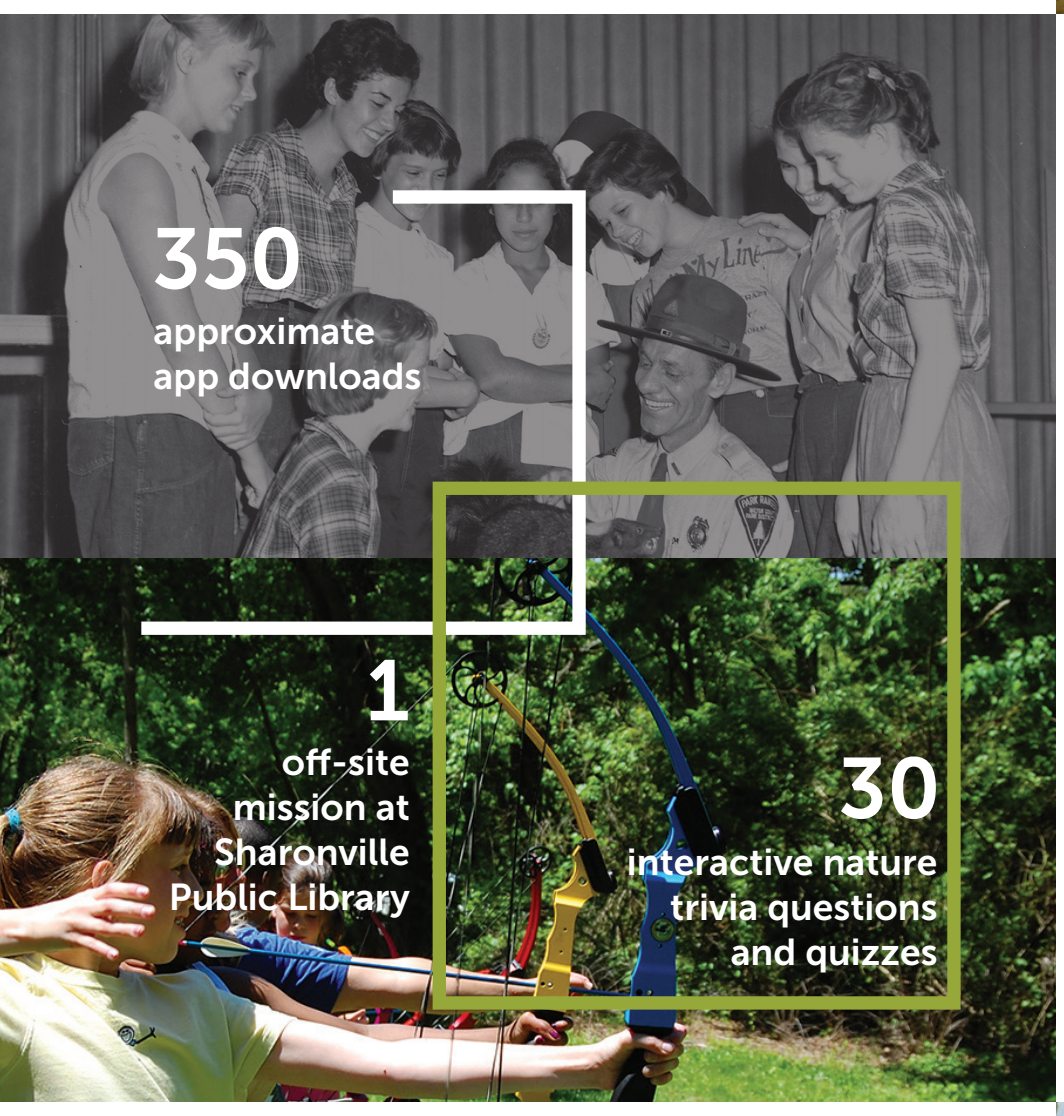
PUBLIC HEALTH & THE NATURAL WORLD

Yesterday, we made a promise to create a refuge for our residents and protect it from the impact of the industrialized world. Today, we continue to champion that promise to contribute to the balance of our natural and built ecosystem.

Balancing the ecosystem

Your contributions support scientific research that strengthens our environment and economy. A feasibility study about the possibility of dredging Sharon Lake indicated needs for cleaner recreation water, healthier fish, and positive financial benefits to our region. Together, we took action.





TIME & GENERATIONS

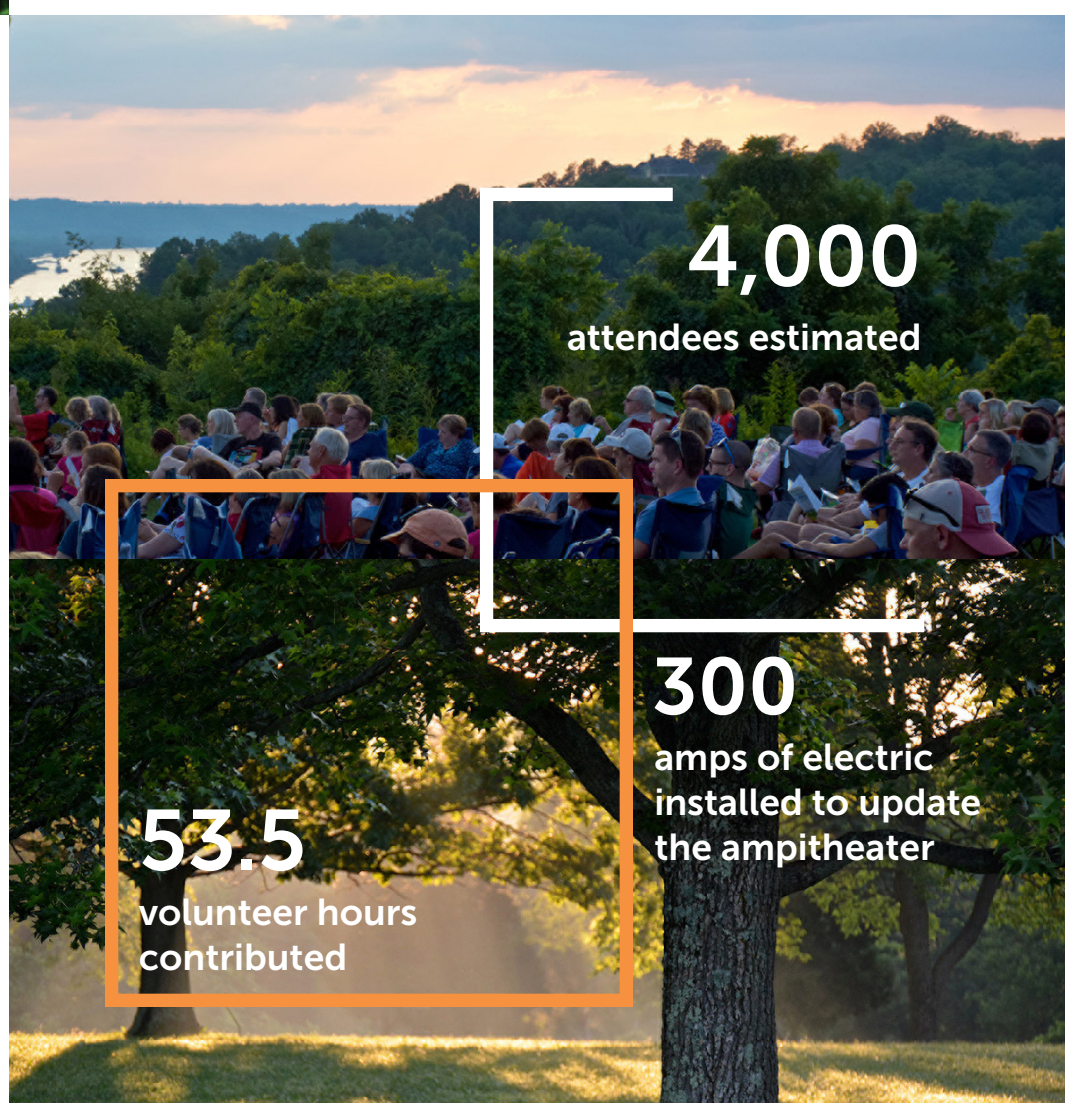
Cultural shifts and technological advances change how we interact with the world. We responded to these changes with an innovative approach to gamification that sparks curiosity and encourages outdoor experiences.

Sparking curiosity

Your contributions support educational adventures that foster healthy early childhood development. The Agents of Discovery app sends young explorers on excursions through Sharon Woods to test their knowledge of nature and facilitate learning. Together, we inspire imagination.

VISITORS & AMBASSADORS

There are so many places for you in our mission. When we all become naturally invested as visitors, volunteers, and victory champions, we secure the future health and vitality of our society.

Orchestrating community


Your contributions support cultural events that serve as the cornerstone of new experiences and human connections. The Cincinnati Pops concert at Woodland Mound attracted nearly 4,000 people who celebrated family outings, romantic evenings, and new friendships. Together, we created connections.
